

Public Health Internship

The Kanawha-Charleston Health Department is currently looking for talented undergraduate and graduate students interested in an exciting public health internship experience. Applications are now being accepted for the summer internship program.

Areas of Emphasis:

- ◇ **Clinical Services:** Provides clinical services to at-risk populations through screening, immunization, testing and education with an opportunity for medical coding and billing and healthcare management.
- ◇ **Emergency Preparedness:** Responsible for health emergency planning and preparedness.
- ◇ **Environmental:** Focus on the prevention, detection, and control of environmental hazards that affect human health.
- ◇ **Epidemiology:** Responsible for communicable disease and outbreak investigation.
- ◇ **Prevention & Wellness:** Promotes healthy environmental and policy changes, implement health promotion programs, provide healthy living messaging to communities and manages the Harm Reduction Clinic.

Intern Selection Criteria:

- Ability to work independently on a variety of projects
- Interest in the field of public health
- Strong oral, written and interpersonal skills
- Motivation to learn more about public health careers

Intern Requirements:

- Currently enrolled in a college/university or a recent graduate
- In good academic standing
- Willing to commit to a two to three month summer assignment

For more information, please call (304) 348-6493 or email kanawhalhd@wv.gov

Applications are due May 5, 2017
